# **PRIMARY CARE UPDATE**

**WHAT DOES THIS MEAN FOR PHYSICIANS?**

# Why should family doctors participate in an East TO OHT?

Being part of the first wave can be beneficial – remember 2005 for FHTs & FHOs

Health system restructuring is not going away

Voices of family doctors are important and can shape the future of OHTs

# How can East Toronto family doctors participate in the OHT?

East Toronto  
Family Practice  
Network

Join the **East Toronto Family Practice Network**  
as the voice of East Toronto family doctors.

We want to bring all our voices to  
East Toronto Health Partners.

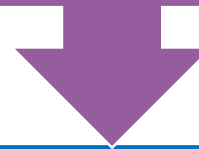

# East Toronto Family Practice Network (ETFPN)

To Go-To-Voice for Family  
Doctors in our East TO OHT

Form a not-for-profit corporation,  
skills based board with  
physician majority

All 260 family doctors are invited  
to join as the foundation and  
membership to be represented

# East Toronto Family Practice Network

## To join, or not to join?

- More physicians = more strength as primary care negotiators in OHT
- No financial risk right at this time, OHIP billings not on the table
- Feel free to join or leave at anytime
- Don't miss out on potential primary care funding opportunities
