

Overdose Outrage Day

On Tuesday, August 31, 2021, we had a memorial for Overdose Outrage Day. This ceremony will forever mourn those we have lost to the poison/unsafe drug supply in our South Riverdale community (and the rest of Canada). The overdose crisis involves so many other systemic factors including the need for decriminalization of all drugs and drug use and the opportunity to redirect funding from policing and the war on drugs to putting that money into community resources, adequate housing and access to food, and fair treatment when accessing health care services. The list goes on...

We remember you by reading your name, keeping your picture on our wall and honouring your memory always. Rest in Power, our friends.
